

Project Report

Project Title: Glamour Beauty

Introduction

Glamour Beauty is a web-based beauty parlour management and booking system. It allows customers to explore available services, check prices, and book appointments online. The main aim of this project is to make salon services more accessible and organized through an online platform.

Technologies Used

HTML – for creating the structure of web pages

CSS – for styling and design

JavaScript – for interactive elements and form validation

PHP – for server-side logic and processing

MySQL Database – for storing customer details, bookings, and service information

Description

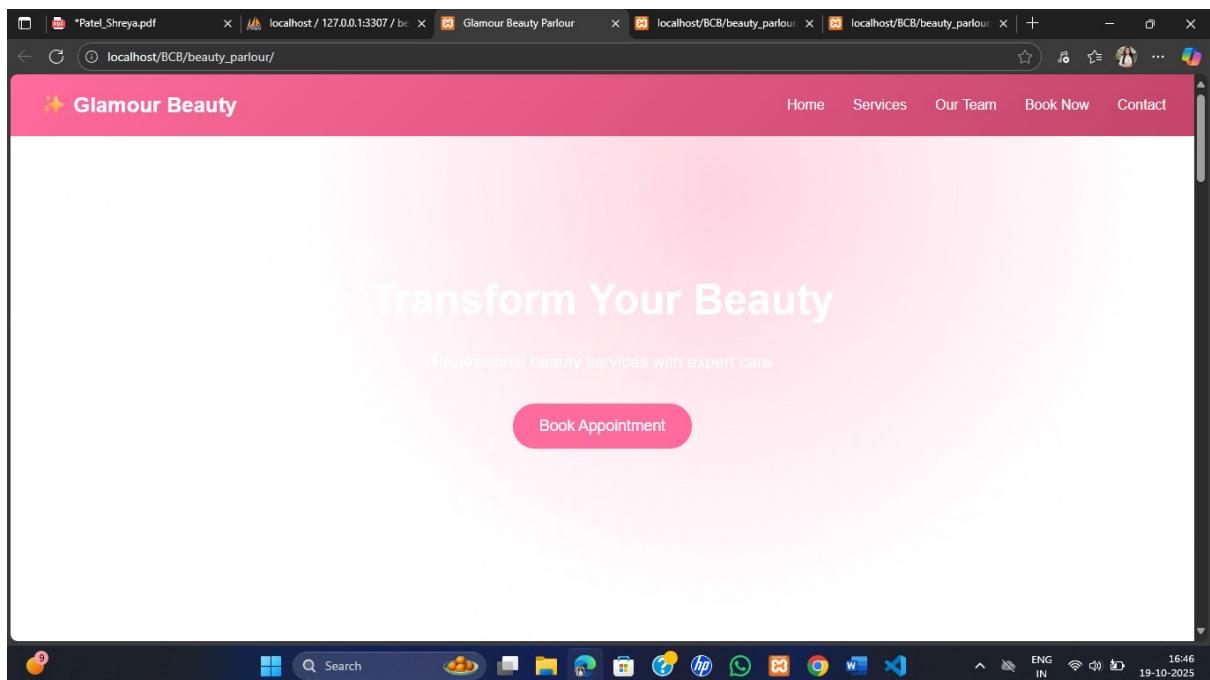

The website contains sections like Home, Services, Gallery, and Booking. Customers can easily browse beauty services, view images, and schedule appointments online. The admin panel allows management of appointments, customer records, and service updates. The design is responsive and user-friendly.

Testing

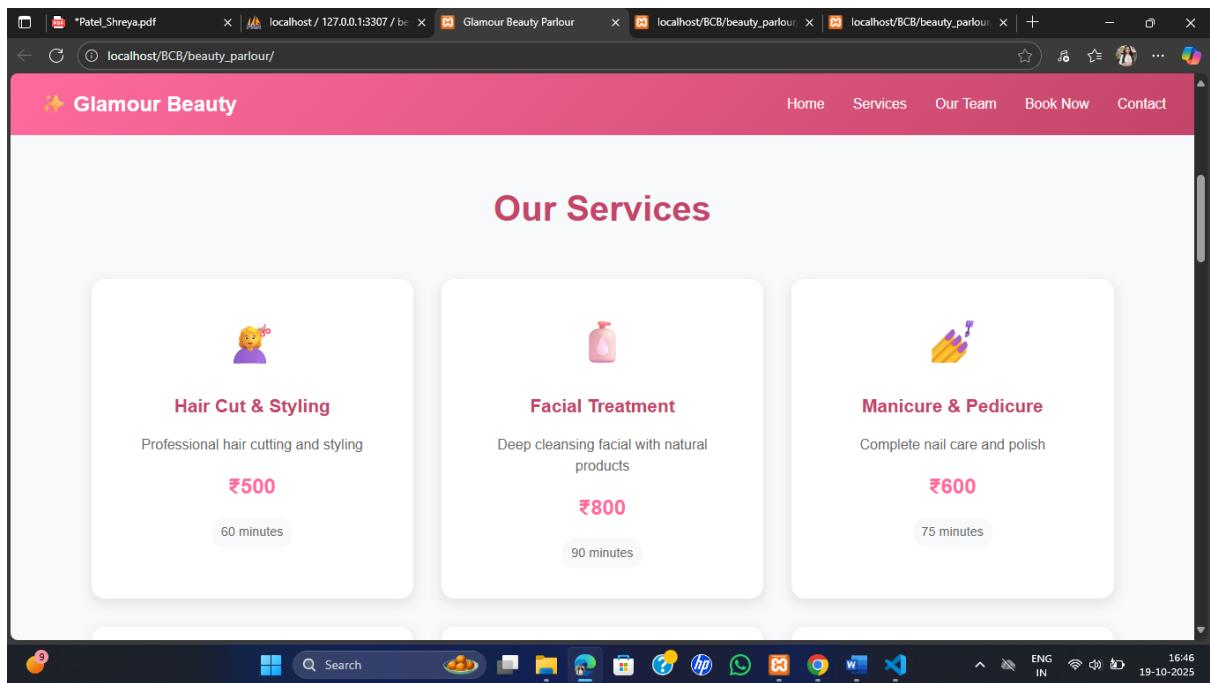

The website was tested for booking functionality, data storage, and responsiveness. It works properly across different devices and browsers.

Snapshot

Home Page

Services Page

Team Page

The screenshot shows a web browser window with multiple tabs open. The active tab is 'localhost/BCB/beauty_parlour/'. The page has a pink header with the logo 'Glamour Beauty' and navigation links for Home, Services, Our Team, Book Now, and Contact. The main content area features a title 'Meet Our Expert Team' and three team member profiles in white boxes:

- Priya Sharma** (Hair Styling & Makeup)
5 years experience
9876543210
- Neha Patel** (Facial & Skin Care)
3 years experience
9876543211
- Riya Singh** (Nail Art & Manicure)
4 years experience
9876543212

The taskbar at the bottom shows various application icons and system status.

Contact Page

The screenshot shows a web browser window with multiple tabs open. The active tab is 'localhost/BCB/beauty_parlour/'. The page has a pink header with the logo 'Glamour Beauty' and navigation links for Home, Services, Our Team, Book Now, and Contact. The main content area features a title 'Contact Us' and three contact information boxes in white boxes:

- Address**
123 Beauty Street, Bharuch, Gujarat
392001
- Phone**
+91 98765 43210
- Hours**
Mon-Sat: 9:00 AM - 7:00 PM
Sunday: Closed

The taskbar at the bottom shows various application icons and system status.

Booking Page

The screenshot shows a web browser window with the title "Glamour Beauty Parlour". The page has a pink header with the logo "Glamour Beauty" and a navigation bar with links for Home, Services, Our Team, Book Now, and Contact. The main content area is titled "Book Your Appointment". It contains a form with fields for "Your Name" (Shreya Patel), "Phone Number" (06351359343), "Email (Optional)" (24amtics0040@gmail.com). Below this, there are dropdown menus for "Select Service" (Hair Spa - ₹1200) and "Select Staff" (Riya Singh). The "Appointment Date" is set to 21-10-2025, and the "Appointment Time" is set to 10:00 AM. A pink "Book Appointment" button is at the bottom.

Database

The screenshot shows the phpMyAdmin interface for the "beauty_parlour" database. The left sidebar shows the database structure with tables: appointments, customers, services, and staff. The main panel displays the "Structure" of the "appointments" table, which has columns: id (Primary Key, Auto Increment), name (Type: varchar(100)), service_id (Type: int(11)), staff_id (Type: int(11)), date (Type: date), time (Type: time), and status (Type: enum('Booked','Canceled')). There are 18 rows in the table. Other tables in the database have similar structures with different column names and types.

Table: services

	Edit	Copy	Delete	id	name	description	price	duration_minutes	category	image_url
Edit	Copy	Delete	1	Hair Cut & Styling	Professional hair cutting and styling	500.00		60	Hair	images/haircut.jpg

Conclusion

Glamour Beauty helps simplify salon appointment management and improves customer convenience. This project strengthened my skills in frontend and backend integration using HTML, CSS, JavaScript, PHP, and MySQL.
